Subject: Collective Bargaining Changes

Dear Supervisor/Manager,

The attached message was sent today via email to all ISU merit staff covered by the AFSCME collective bargaining agreement, which includes just over 1,200 employees. Many individuals on our campus have questions about what may result on or after July 1, 2017 when collective bargaining agreements will look very different. While the details are unknown at this time, we felt it was important to reassure those fellow members of the ISU family that benefit and employment provisions will remain the same at least through June 30, 2017.

Please call the UHR Service Center, 515-294-4800, if you have questions. Please look for more information in Inside Iowa State as it becomes available.

Best Regards,
Kristi
